INJECTION OF WATER, AND FOR)
CERTIFICATION AS AN ENHANCED)
RECOVERY PROJECT FOR PURPOSES)
OF SECTION 59-5-102(7) OF THE UTAH)
CODE, ANNOTATED.)

**AMENDMENT TO
REQUEST FOR AGENCY ACTION**

Docket No. 2012-006

Cause No. 276-01

QEP ENERGY COMPANY ("QEP"), by and through its undersigned attorneys, petitions the Board of Oil, Gas and Mining to amend the Request for Agency Action previously submitted by QEP in this matter. In support of this amendment, QEP respectfully states and represents that:

1. In reviewing the Request for Agency Action, personnel within the Bureau of Land Management discovered a potential overlap between the definition of the zone covered by the Request and the Glen Bench Formation covered by the Glen Bench Secondary Recovery Unit. The Glen Bench formation is excluded from the White River Unit.

2. QEP did not intend to include the Glen Bench Formation in the Request. The intention was to only cover the formation included within the Initial Consolidated Green River Formation Participating Area "A" of the White River Unit.

3. QEP hereby requests that the formation to be approved for enhanced and secondary recovery, as defined in Paragraph 7 of the Request, be amended to be described as follows:

That certain interval in the Lower Green River Formation as identified by the Halliburton Induction electrical log dated January 22, 2002, run in the GB WRU 14W-4-8-22 well located in the SE¼SW¼ of Section 4, Township 8 South, Range 22 East, Uintah County, Utah, with the top of the Project Formation being found at a depth of 5,590 feet below the surface and the base of the Project Formation being found at a depth of 5,974 feet below the surface or to the stratigraphic equivalent thereof.

4. As a result of this change, Exhibit C-2 attached to the Request needed to be modified to reflect the new definition. Attached to this Amendment is a new Exhibit C-2 Type Log which identifies the new definition. A notation as to the location of the Glen Bench Formation was also added for your reference.

5. Other than as outlined above, the original Request for Agency Action remains as stated.

DATED this 23rd day of January, 2012.
